

Before Installation (for installation personnel)

Warning

Be sure to follow all instructions in this manual to ensure safe installation and operation of the product.

Carefully consider the installation location and driver's operation of the product before installation. Be sure not to install the unit where it could fall. Improper installation or operation could cause the product to fall and damage the vehicle or present the severe danger of impeding driving.

Do not disassemble or modify this product. Such actions can not only damage or destroy the product but will also void the warranty.

Ensure that the vehicle will remain stationary and turn off the engine before installing this product. Failure to do so could result in a fire, and could make the vehicle move during installation.

Do not perform installation of this product immediately after the engine has been switched off. The engine and exhaust system are extremely hot at this time and can cause burns if touched.

Remove the key from the ignition and disconnect the negative (-) battery terminal prior to installation of this product. Failure to do so could result in a fire caused by an electrical short circuit.

Take care not to install this product in a way that interferes with safety equipment such as seat belts and air bag systems or vehicle operation equipment such as engine controls, steering wheel or brake systems. Interference with normal operation of the vehicle can result in an accident or fire.

Ensure that the wiring of this product does not have an adverse impact on the other wiring of the vehicle. Any controlling devices or other electronic components of the vehicle could be damaged.

Use a solderless connector or similar device for wiring connections and make sure connections are insulated. In areas where there could be tension or sudden impacts on the wiring, safeguard the wiring with corrugated tubing or other shock absorbent material. Accidental shorts can cause fires.

Please keep children and infants away from the installation area. Children may swallow small parts or be injured in other ways.

Caution

This product is for use ONLY on vehicles with a 12V electrical system. Never use the product on 24V vehicles.

Use only the wires provided. If additional wires are required, use the same wire as provided with the kit.

Insulate any unused wires. If any wires or connectors loosen during installation, please make sure they are correctly reattached.

Dropping any of the components of this product will result in damage to the product.

Excessive force on switches/terminals may result in damage to the product.

Do not attach wires on the body of the vehicle or to engine parts as this may result in damage to the product.

Install sensors away from hot or wet places.

Do not pull the wires out of the gauge. Unclip them.

Install sensors away from high tension wires and also away from radio transmitters and antennas as this could cause the gauges to malfunction.

Do not wire the sensor wires near the engine, exhaust pipe or turbine. It may result in damage or fusion of wires.

When diverging any wires, make sure the exposed wires are recovered and made waterproof.

Wear gloves so as not to get burnt when soldering.

If the negative battery terminal is disconnected, audio and clock memory data may be lost. The necessary data will have to be reset after installation.

Confirmation

The gauge pointers may not be in the proper position when you purchase the product. Normal function will resume when power is connected.

Please read pages for the customer as well as the pages for the installation personnel in order to have a full understanding of all the procedures.

Please confirm with the car maintenance book when installing and detaching genuine parts.

After installation is complete, return this operations manual to the customer along with the warranty.

About Installation and Operation (for customer and installation personnel)

Warning

Please have this product installed by the retail store or dealer where it was purchased. Installation by the customer will void the warranty.

Do not disassemble or modify this product. Such actions cannot only damage or destroy the product but will also void the warranty.

In order to ensure safe driving, check the information on the meters only for a short period of time. Looking at the meters for long periods of time could distract adequate attention from the road and result in an accident.

Discontinue use of this product if meters don't operate, water gets into the unit, or smoke or a strange odor comes from the unit. If such a condition occurs, contact the sales outlet or installation personnel as soon as possible. Continued use while the condition exists could result in an accident or fire.

Caution

Do not pull the wires out of connectors forcefully. The connectors and the wires may be broken. When pulling out the wires, press the lock firmly and unclip the locks of connectors.

Confirmation

This product cannot be linked to the Defi-Link System.
